

Good Bye 2008 - Welcome 2009.

Dear All,

I just want to share my experience with you for the year 2008, as Fin-soft is directly in touch with “financial advisors” on a regular basis.

After reaching the highest level of benchmark, the stock market has fallen down at the lowest level & steadily at 9000 mark.

If you can remember in the year 2000, when Tech-Sector has fallen down & MF industry was on the back foot as per today’s situation.

The fear factor & panic level of the people have been seen at very high level.

Fin-soft has tried it’s best to rescue not only the current clients but as a community whole (Financial Advisors) by continuously improving software features / services.

Even though in cumbersome situation in Financial Market, “Fin-Soft Users” are survived, because they have magnificent tool (weapon) ensured by uninterrupted services/Progress/Updation and a continuous improvement as per requirements.

I kindly request you to visit www.fin-softonline.co.in - A web browser “NANO” Research Tool (included in the offline version also & for Web You can customized & link with your Website).

I just inform you that our continuity factor is constant. We were available in the year 2000 – year 2004 (Benchmark years for Financial market)
We are still available in the year 2008. We promise you for our availability even in to future.

All because of the esteemed cooperation of my “Fin-Soft Team”.
I am thanking & congratulating my Team Fin-soft.

I am wishing you all “A happy prosperous & Fruitful New Year”.

Ashesh Shah
(Fin-Soft Solutions)
